### Office 365: Enterprise services for your business

With Microsoft Office 365, we deliver the power of enterprise cloud productivity to small and medium businesses without costly infrastructure purchasing. This helps you to save time, money and free up valued resources. Office 365 combines the familiar Office desktop suite with cloud-based versions of Microsoft next-generation communications and collaboration services: Exchange Online, OneDrive, SharePoint Online, and Skype for Business. Office 365 is simple to use and backed by the robust security and guaranteed reliability you expect from a world-class service provider.

**Office Professional Plus:** Subscription model for your desktop Office products, with pay-as-you-go, per-user licensing. Closely integrated with Office 365. Simplified user set-up. Always up to date with the latest version of Office.

**Exchange Online:** Rich browser experience with new Outlook Web App. Improved inbox management with Conversation View. Integrated multi-mailbox search and retention policies. New personal email archiving and compliance capabilities.

**OneDrive for Business:** A robust, full-featured and intuitive file sync and share service that integrates closely with Office, both locally and online.

**Mobile Apps:** Microsoft has introduced richly featured iOS and Android apps for the familiar Office products, including Outlook Word, Excel, PowerPoint, OneNote OneDrive for Business, and Yammer.

**Sharepoint Online:** Manage and share important documents with colleagues. Share personal insights and status updates with colleagues. Keep teams in sync and manage important projects. Find important documents and people easily.

**Skype for Business:** Text/voice/video chat with individuals or groups. Escalate conversations into ad-hoc online meetings with audio, video and desktop sharing. Easy access for external meeting participants. Video calls between Skype for Business and the Skype consumer client.

**Project and Visio for Office 365:** Microsoft's industry standard apps for planning and documentation are both available in subscription licensing models, integrated with Office 365.
